

Feedback from Stephen Kirabira, pastor in Uganda

27-01-2016

In November 2015 he got two KingdomIT Boxes for his mission work in Uganda and Congo. You can see an interview with him on our website at <http://kingdomit.nl/en/projects/kingdomit-box/>.

He now sent pictures of the people he met on his recent mission trip to Kyenjojo District in Southwest Uganda. He wrote: “The four children you see here lost their father due to HIV Aids and their mother is HIV positive. The local pastor of a church in remote area needs help for school fees. The bigger girl has finished primary school and start secondary school but faces fees challenges. All these are prayer items to carry before God. So please remember this family in your prayers.”

He also wrote “Yes, I was teaching using the KingdomIT Box. I had uploaded lessons and was using phones.” See pastor Stephen below in a remote classroom, teaching with materials on the KingdomIT Box.
